## **ART LOVERS CAN'T AFFORD TO MISS THIS...**

Malabar designs and crafts exclusive artisanal furniture with a distinct artistic aesthetic. Established in 2012 with the launch of a range of decorative Portuguese Fado guitars and the World Architects furniture collection, Malabar has released to date a total of 5 exceptional furniture, upholstery and decorative accessories collections.

Abandoning the rules of right and wrong, most recently Malabar launches the Future Classic's collection that is all about to move, to shock, to offend, or to be fabulous in your interior décor.

Malabar design and handmade production stems from the Porto area, a northern region in Portugal with a long and strong tradition in artisanal handcrafted furniture.

## LA VIE CONSOLE

W 160 cm | 63" D 46 cm | 18.1" H 79 cm | 31.1"

Art tends to evoke specific emotions when our gaze falls its way. Art is only there for us to look at and appreciate from a relative distance. Malabar designed a highly functional console that carries out its specific purpose — to provide a decorative display — while adding an undeniable artistic element to a room.

**Materials** | Table top in lacquered wood in different colors. Legs in lacquered wood in different colors, metallic gold leaf and polished brass. Details in lacquered wood, polished brass, hammered brass and hand painted glass.

## PROPORTION CONSOLE

**W 182.4 cm | 71.8" D 45 cm | 17.7" H 90 cm | 35.4"**

"I don't want to be interesting. I want to be good". The author of these words, Mies Van der Rohe, is the inspiration of the Proportion Modern Console and its symmetrical design. Worthy of reference, this contemporary piece combines simplicity with design in a sublime and natural way, appealing to those who prefer functional and modern furniture pieces.

**Materials |** Structure in ironwood, legs in lacquered wood.  
Interior of the drawers in satinwood.

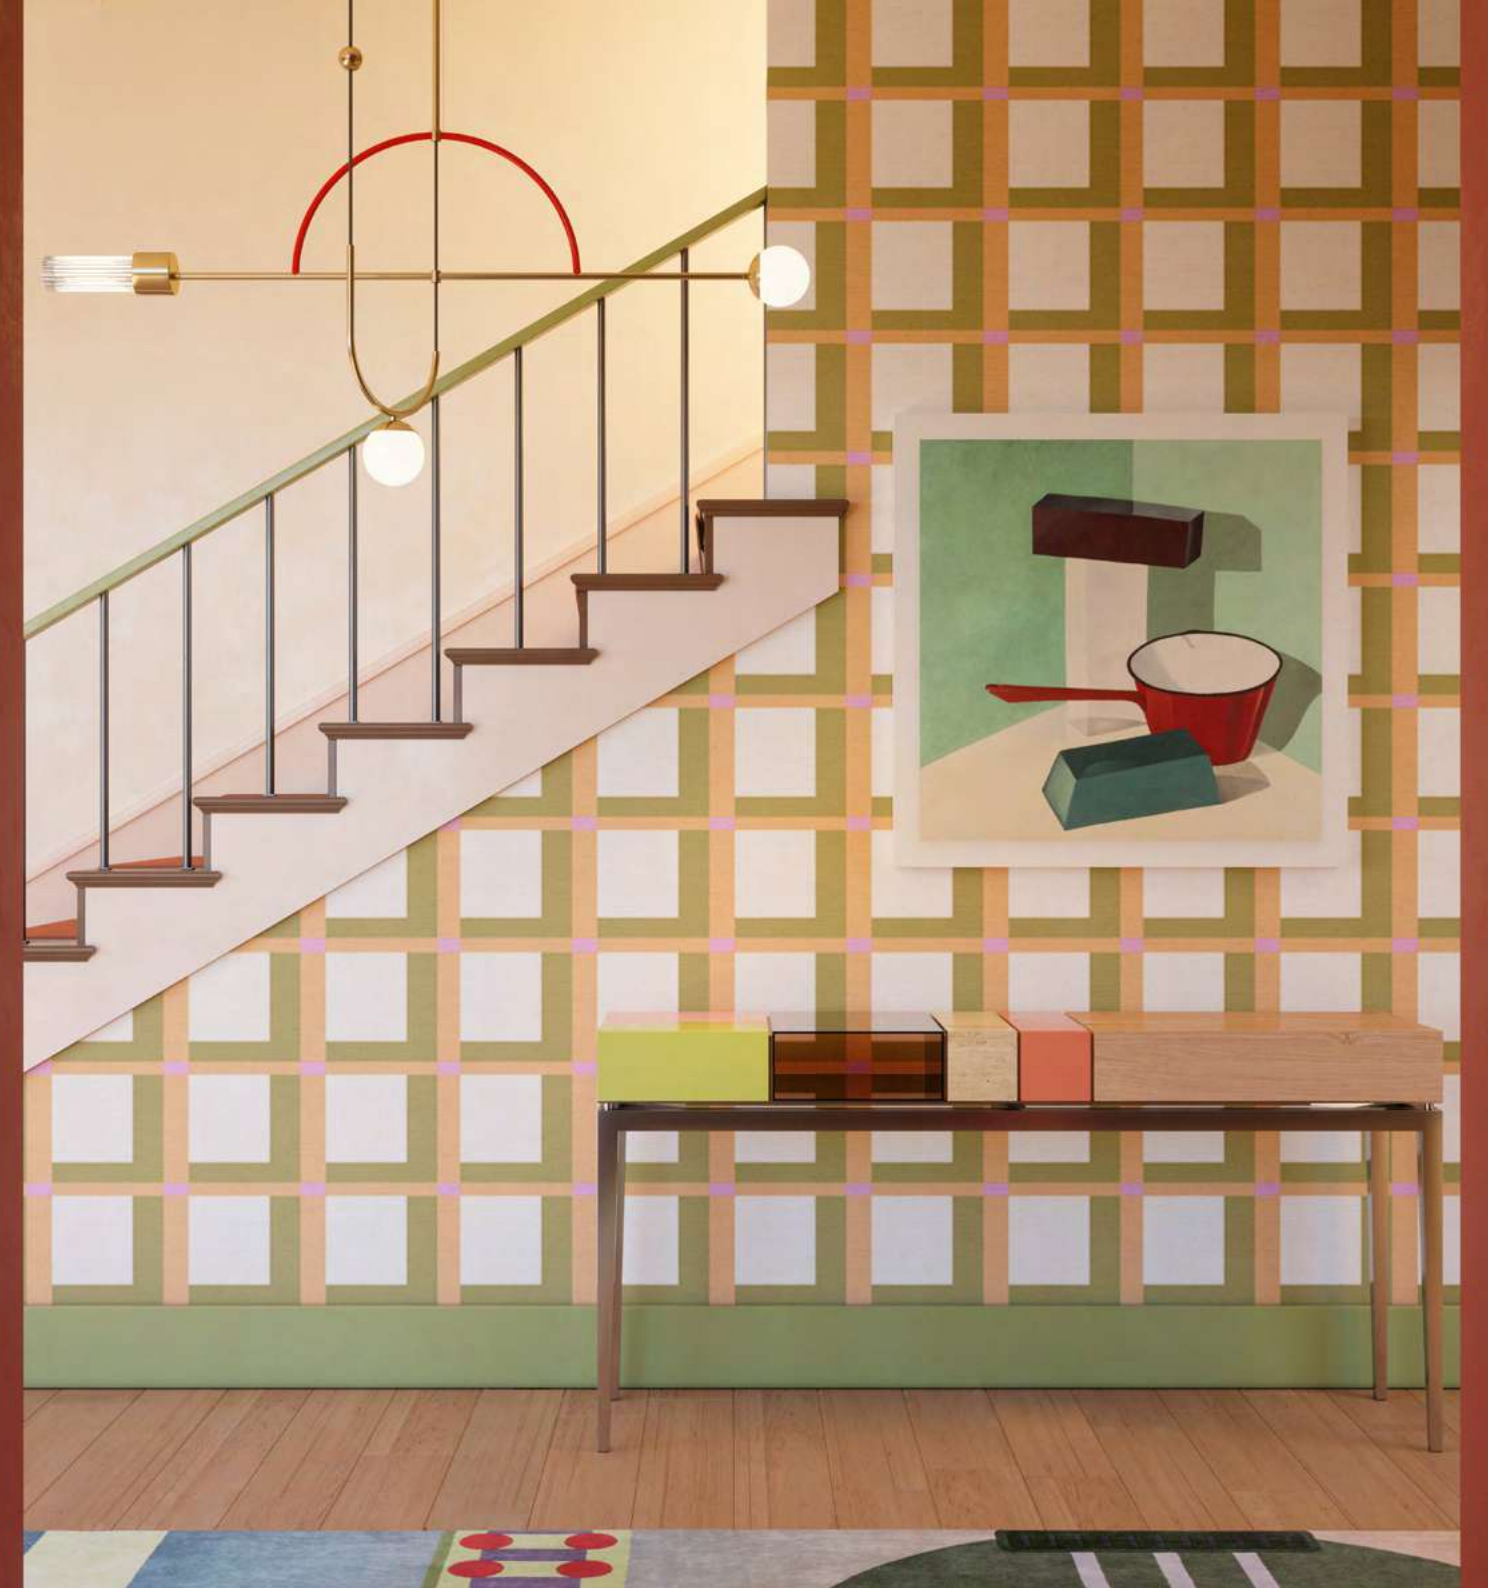

## PROPORTION II CONSOLE

W 182 cm | 71.7" D 45 cm | 17.7" H 90 cm | 35.4"

This contemporary piece combines simplicity with design in a sublime and natural way, appealing to those who prefer functional and modern furniture pieces.

**Materials** | Structure in various lacquers with blue glass and brushed brass details.

WANDERLUST  
CONSOLE

W 147 cm | 57.9” D 40 cm | 15.7” H 90 cm | 35.4”

The Wanderlust Console, with Rosso Levanto marble, has a diversity of polished brass pipes with different thicknesses. It carries an unnatural yet organic landscape into contemporary interior areas, just like Suppose’s project. The clear glass top gives a rare style and grace to this modern piece.

**Materials |** Structure in polished brass adorned with Rosso Levanto marble accents. Console top in clear glass.

HORIZON  
CONSOLE

W 130 cm | 51.2” D 46.5 cm | 18.3” H 100 cm | 39.4”

The Horizon Modern Console recalls the tales of the Portuguese maritime exploration, retold by ingenious poets and common people alike for many centuries thereafter. Inspired by the divine sight of a new land from distant waters, this contemporary piece was designed with the organic contours of a coastline in mind.

**Materials |** Table top and Base in walnut root veneer.  
Drawers in wood coated in metallic gold leaf. Structure in lacquered wood.

The background is a light beige color with a subtle, organic texture. It features several large, semi-transparent geometric shapes: a large rounded rectangle on the left, a large rounded rectangle on the right, and a large rounded rectangle at the bottom. There are also several smaller shapes, including a dark grey circle in the upper left, a dark grey circle in the lower left, a dark grey circle in the lower right, and a dark grey circle in the upper right. The word "SEATING" is centered in the middle of the image in a bold, serif font.

## MADONNA OTTOMAN

W 110 cm | 43.3" D 110 cm | 43.3" H 45 cm | 17.7"

Always curious about new scientific discoveries, the atom becomes one of Salvador Dalí's favorite subjects of reflection. Dalí borrows the image of a Madonna by Raphael Sanzio to conceive the Maximum Speed of Raphael's Madonna. She breaks up into spheres, geometrically perfect figures, and forms resembling rhinoceros horns as Dalí unearths logarithmic spiral forms based on the pattern of Divine Proportion.

Inspired by the so-called "atomic period" of Dalí, Malabar designers conceived the Madonna Ottoman. This art-filled ottoman features four marble spheres feet and two jacquard velvet upholstered layers. This art-inspired ottoman will enhance your interiors by placing it at select vantage points in your home décor.

# TECHNIQUES

A series of thorough methods and procedures make the most detailed furniture. To bring our pieces to life, our artisans make use of several different techniques.

# WOOD CARVING

Wood carving is one of the most common practices in sculpting. Very subtle details can be carved in wood using various razor-sharp tools, from gouges to saws. The hands of the woodcrafters must exert the appropriate force so the wood is not damaged, which requires mastery of this art.

# HAND PAINTING

This two-dimensional art resorts to different techniques with different kinds of paint made of various pigments. For a fully personalized work, where no piece's details resemble the others', artisans use their hands to apply this technique, swiping the brush with their flow and tact.

# METAL WORKING

Metal forging involves heating and shaping metal through methods like casting, hammering, and spinning. The ancient technique of FILIGREE, dating back to 2500 B.C., creates intricate lace-like designs from fine metal threads and tiny welded spheres. This delicate craftsmanship is often used in goldsmithery to produce elegant ornaments.

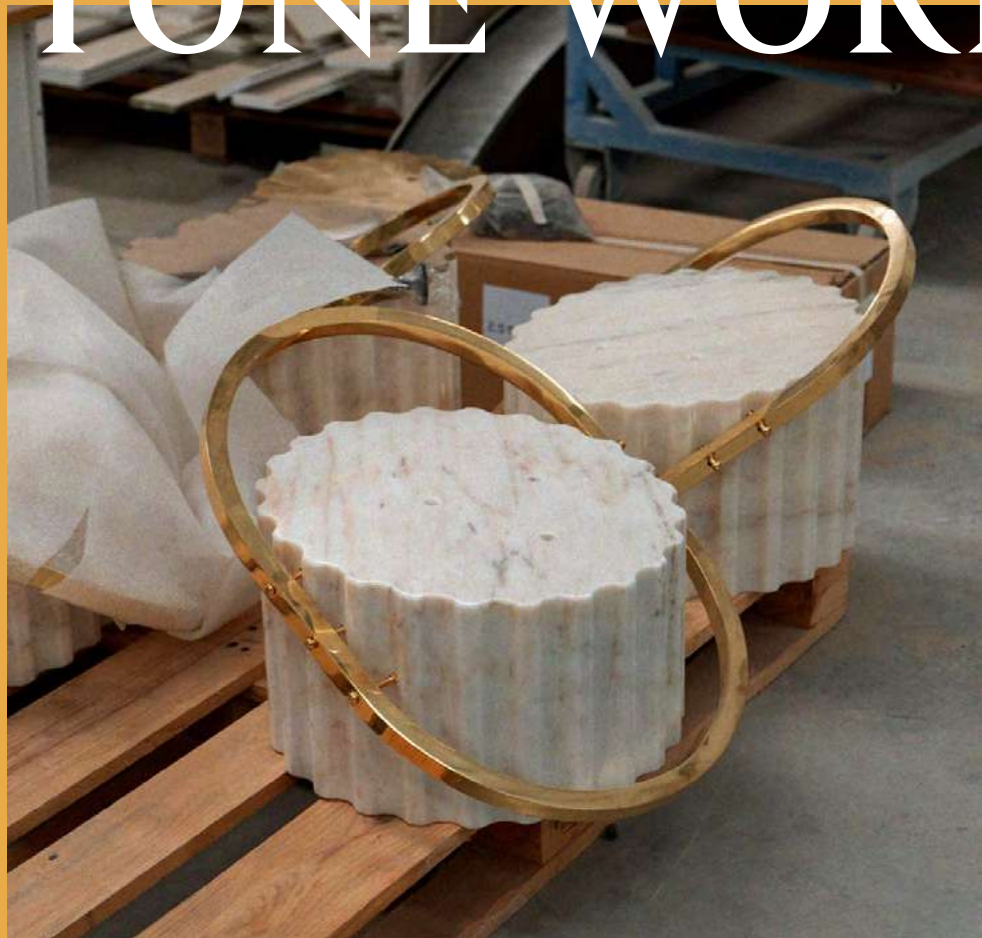

# SCULPTING

Like metalworking, sculpting is the art of changing the shape of stone, metal, glass, pottery, and wood. Having an extremely tactile component given the conception of textures, relief, and volume, it represents a technique born in the prehistoric period.

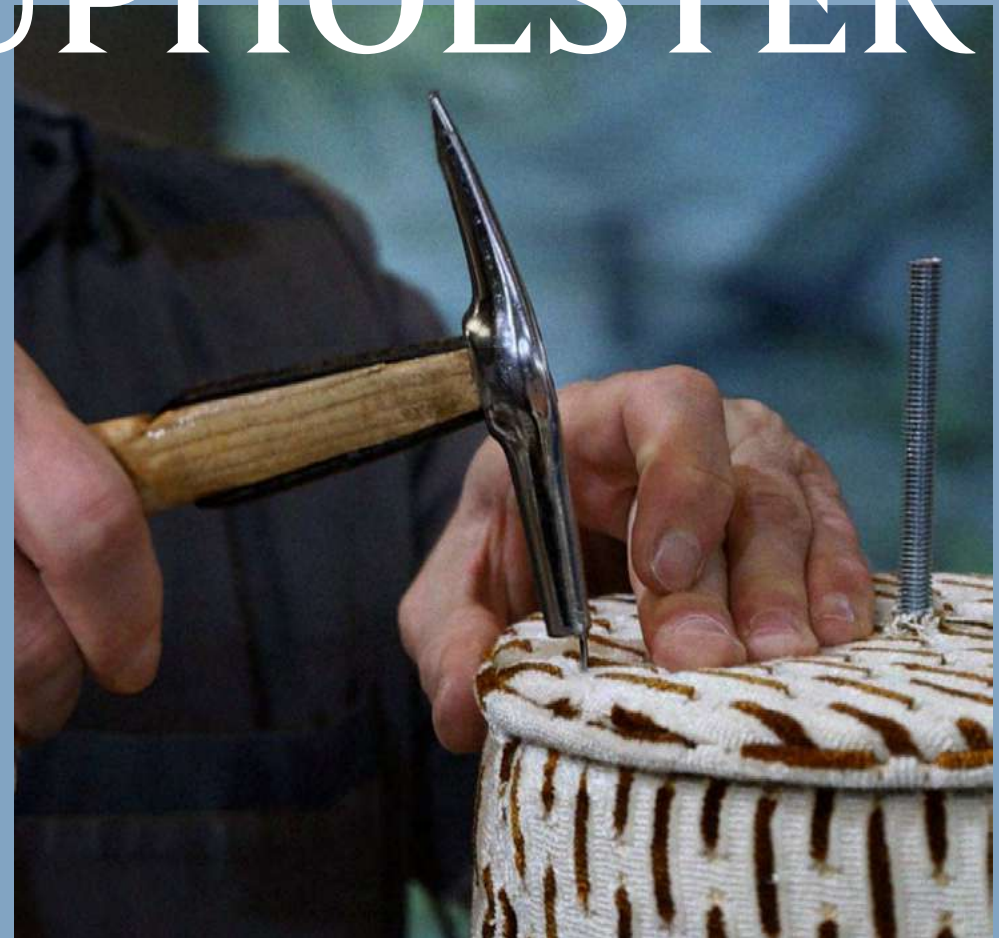

# STONE WORK

The process of shaping, carving, and polishing marble to create stunning table tops and decorative detailed pieces, makes it a preferred choice for classic yet contemporary designs. Highly skilled artisans use traditional hand tools and modern machinery to transform raw marble blocks into beautiful pieces.

# UPHOLSTERY

Skilled upholsterers meticulously measure, cut, and sew textiles to fit the contours of the piece, ensuring a precise and tailored finish. They may also add padding, springs, or webbing to add comfort and support.
